

You're Invited to a Healthcare Professional CE Group Viewing Event

Applying New Learnings on Human Milk Composition to Clinical Practice in the NICU

During this presentation, expert faculty will provide an overview of recent updates to neonatal nutrition guidelines, with an emphasis on the differences from prior editions. You will then learn about the importance of optimizing nutrition in preterm infants and the benefits of an evidence-based approach to human milk fortification. A variety of strategies for achieving these goals will be reviewed, including individualized supplementation of select macro- and micronutrients. A multidisciplinary panel will then discuss ways in which NICU teams can apply best practices to neonatal nutrition, including recommendations for optimizing cross-functional communication, family education, discharge planning, and follow-up.

After viewing, go to <https://pnce.org/gv/60333> to complete a short assessment and get your certificate.

Target Audience

Developed to support pediatricians, neonatologists, nurses, dietitians and other healthcare providers involved in neonatal and childhood health.

Learning Objectives

At the conclusion of this activity, participants should be better able to:

- Understand the typical nutrient profile of preterm, term, and donor human milk
- Assimilate new learnings from human milk research on the nutrient composition of human milk, including its variability, dynamicity, and factors that influence its components
- Provide improved growth and nutrition-related outcomes to premature infants, leveraging the variety of human milk fortification strategies available
- Evaluate the role of the healthcare team in optimizing nutrition to support growth and development.

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, Annenberg Center for Health Sciences at Eisenhower (Annenberg Center) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The Annenberg Center designates this enduring material for a maximum of 2.0 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The Annenberg Center designates this enduring activity for a maximum of 2.0 American Nurses Credentialing Center (ANCC) contact hour, including 0.25 pharmacology hour.

Provider is approved by the California Board of Registered Nursing, Provider #13664, for 2.0 contact hour. *To receive credit for education contact hours outside of the state of California, please check with your state board of registered nursing for reciprocity.*

Registered dietitians (RDs) and dietetic technicians, registered (DTRs) will receive 2.0 continuing professional education unit (CPEU) for completion of this program/material.

Registered Dietitians and Dietetic Technicians are to select activity type 102 on Professional Development Portfolio (PDP) activity logs.

ANNENBERG CENTER FOR HEALTH SCIENCES
AT EISENHOWER
Imparting knowledge. Improving patient care.

This activity is supported by an educational grant from **Mead Johnson Nutrition.**
