

You're Invited to a Physician CME, Nurse and Registered Dietitian CE Group Viewing Event

Bioactivity of Milk Fat Globule Membranes (MFGMs) and Their Impact on Infant Growth and Development

Bo Lönnerdal, PhD, reviews the bioactive components of human milk, with a focus on the milk fat globule membrane (MFGM). The MFGM is a complex of components shown to inhibit various pathogens, and contribute to brain myelination and function. Dr. Lönnerdal will specifically discuss MFGM's contributions to brain function and development, and analyze the evidence base supporting MFGM use in clinical practice.

Accreditation and Certification

The Annenberg Center for Health Sciences at Eisenhower is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation—Enduring Material

The Annenberg Center for Health Sciences at Eisenhower designates this enduring material for a maximum of 1.0 *AMA PRA Category 1 Credit*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Annenberg Center for Health Sciences is accredited by the American

Association of Nurse Practitioners as an approved provider of nurse practitioner continuing education.

Provider number: 040207.

This program is accredited for 1.0 contact hour.

Program ID #5623-EM2.

Annenberg Center for Health Sciences is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

A maximum of 1.0 contact hour may be earned for successful completion of this activity.

Provider is approved by the California Board of Registered Nursing, Provider #13664, for 1.0 contact hour.

Annenberg Center for Health Sciences at Eisenhower is a Continuing Professional Education (CPE) Accredited Provider with the Commission on Dietetic Registration (CDR). Registered dietitians (RDs) and dietetic technicians, registered (DTRs) will receive 1.0 continuing professional education unit (CPEU) for completion of this program/material.

Provider number AC857

Activity number 139801

Learning Objectives

At the conclusion of this activity, participants should be better able to:

- Identify key components required for health, brain function and development
- Explain how MFGM may support the developing central nervous system and prevent infections
- Use evidence-based research to develop a supplementation plan that best aligns with the bioactivities provided by human milk
