

## You're Invited to a Physician CME, Nurse and Registered Dietitian CE Group Viewing Event

### Lactoferrin: A Key Nutrient to Support Gut Health in Developing Infants

**Paolo Manzoni, MD, PhD**, reviews the nutritional components of fresh human milk and how these components contribute to brain and gut development. Dr. Manzoni discusses lactoferrin's role in gut development and its potential health benefits in the developing infant. He also describes the role of lactoferrin in clinical practice, and its use in fortification strategies and in formula.

#### Accreditation and Certification

The Annenberg Center for Health Sciences at Eisenhower is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

#### Credit Designation—Enduring Material

The Annenberg Center for Health Sciences at Eisenhower designates this enduring material for a maximum of 1.0 *AMA PRA Category 1 Credit*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Annenberg Center for Health Sciences is accredited by the American

Association of Nurse Practitioners as an approved provider of nurse practitioner continuing education.

Provider number: 040207.

This program is accredited for 1.0 contact hour.

Program ID #5591-EM2.

Annenberg Center for Health Sciences is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

A maximum of 1.0 contact hour may be earned for successful completion of this activity.

Provider is approved by the California Board of Registered Nursing, Provider #13664, for 1.0 contact hour.

Annenberg Center for Health Sciences at Eisenhower is a Continuing Professional Education (CPE) Accredited Provider with the Commission on Dietetic Registration (CDR). Registered dietitians (RDs) and dietetic technicians, registered (DTRs) will receive 1.0 continuing professional education unit (CPEU) for completion of this program/material.

Provider number AC857

Activity number 139471

#### Learning Objectives

At the conclusion of this activity, participants should be better able to:

- Describe the components of human milk that support brain and gut development
- Explain how GI processes and functions are impacted by lactoferrin in the developing infant
- Use evidence-based research to develop a supplementation plan that best aligns with the nutrients provided in human milk
