

You're Invited to a Physician CME, Nurse and Registered Dietitian CE Group Viewing Event

Cow's Milk Allergy: Mechanisms, Diagnosis, and Treatment

David Fleischer, MD, and **Carina Venter, PhD, RD**, discuss strategies for diagnosing and managing food allergies in infants, specifically cow's milk allergy (CMA) and its pathophysiology. Faculty describe IgE-mediated reactions to food; discuss current standard of care, including guided CMA elimination diet; examine the reintroduction of foods via oral immunotherapy; provide details about suitable and clinically recommended formulas; and review the latest insights on allergy trigger mechanisms that are providing new research targets for allergy treatments and clinical trials.
