

You're Invited to a Physician CME, Nurse and Registered Dietitian CE Group Viewing Event

An Overview of Food Allergies in Children

Stanley Cohen, MD, introduces food allergies in infants and children, including the definition, prevalence, burden, and pathophysiology of food allergy. Dr. Cohen also reviews the differences between IgE- and non-IgE-mediated food allergies; the clinical signs and symptoms of food allergies; tolerance and intolerance; introduction of complementary foods; feeding considerations for children with and without allergies; and developing healthy feeding patterns.
