

You're Invited to a Physician CME, Nurse, Registered Dietitian and CE Group Viewing Event

Outcomes of Children Born Extremely Preterm

Children who are born extremely preterm are at risk for cognitive difficulties and disability. A common major morbidity for these infants is neurodevelopmental impairment (NDI). **Susan R. Hintz, MD, MS**, focuses on changes in increased survival for infants born extremely preterm, modifications in resuscitation and perinatal neonatal care, as well as longer term, non-traditional NDI outcomes. She reviews studies that extend beyond 2-years of age, and how they could change the trajectory of NDI outcomes and future research. Dr. Hintz cites the importance of earlier interventions in the NICU, and better preparing families with transition-to-home care programs and excellent referral and follow-up. She concludes with quality improvement opportunities across the provider network, and discusses the importance of integrating health-related quality of life outcomes to better understand and improve long-term neurodevelopmental outcomes.

Accreditation and Certification

The Annenberg Center for Health Sciences at Eisenhower is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Annenberg Center for Health Sciences at Eisenhower is a Continuing Professional Education (CPE) Accredited Provider with the Commission on Dietetic Registration (CDR). Registered dietitians (RDs) and dietetic technicians, registered (DTRs) will receive 1.0 continuing professional education unit (CPEU) for completion of this program/material.

Credit Designation-Enduring Material

The Annenberg Center for Health Sciences at Eisenhower designates this enduring material for a maximum of 1.0 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Provider number: AC857

Activity number: 161284

Annenberg Center for Health Sciences is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Learning Objectives

At the conclusion of this activity, participants should be better able to:

A maximum of 1.0 contact hour may be earned for successful completion of this activity.

- Recognize neurodevelopmental impairment outcomes in very preterm infants and its significance beyond two years of age
- Review common challenges associated with neurodevelopmental impairment outcomes
- Discuss the importance of earlier interventions in the NICU and better preparing families with transition-to-home programs, as well as referrals to improve later outcomes

Provider is approved by the California Board of Registered Nursing, Provider #13664, for 1.0 contact hour.
