Outcomes of Children Born Extremely Preterm

Miami Neonatology 2020—44th Annual International Conference

Susan R. Hintz, MD, MS Epi, focuses on changes in increased survival for infants born extremely preterm, modifications in resuscitation and perinatal neonatal care, as well as longer term, non-traditional NDI outcomes. She reviews studies that extend beyond 2 years of age, and how they could change the trajectory of NDI outcomes and future research. Dr. Hintz cites the importance of earlier interventions in the NICU, and better preparing families with transition-to-home care programs and excellent referral and follow-up. She concludes with quality improvement opportunities across the provider network, and discusses the importance of integrating health-related quality of life outcomes to better understand and improve long-term neurodevelopmental outcomes.

Archived video from her conference presentation.

Accreditation and Certification

The Annenberg Center for Health Sciences at Eisenhower is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Annenberg Center for Health Sciences at Eisenhower designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credit*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Annenberg Center for Health Sciences is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

A maximum of 1.0 contact hour may be earned for successful completion of this activity.

Provider is approved by the California Board of Registered Nursing, Provider #13664, for 1.0 contact hour. *To receive credit for education contact hours outside of the state of California, please check with your state board of registered nursing for reciprocity.*

Annenberg Center for Health Sciences at Eisenhower is a Continuing Professional Education (CPE) Accredited Provider with the Commission on Dietetic Registration (CDR). Registered dietitians (RDs) and dietetic technicians, registered (DTRs) will receive 1.0 continuing professional education unit (CPEU) for completion of this program/material.

Provider number: AC857
Activity number: 161284

Learning Objectives

- Recognize neurodevelopmental impairment outcomes in very preterm infants and its significance beyond 2 years of age.
- Review common challenges associated with interpreting neurodevelopmental impairment outcomes.
- Discuss the importance of earlier interventions in the NICU and prepare families better with transition-to-home programs, as well as referrals, to improve later outcomes.
