

# You're Invited to a Healthcare Professional CE Group Viewing Event

## Food Oral Immunotherapy: Risks, Benefits, Expected Outcomes

**Mimi Tang, PhD**, discusses food oral immunotherapy. Food allergy is on the rise in the United States and around the globe. Oral immunotherapy offers a variety of potential outcomes depending on dosing regimen selection offering patients varying degrees of protection and enhanced quality of life.

After viewing, go to <https://pnce.org/gv/6092-5EM>  
to complete a short assessment and get your certificate.

### Target Audience

This education was developed to support primary care physicians, general practitioners, pediatricians, and other healthcare providers who treat infants and children.

### Learning Objectives

At the conclusion of this activity, participants should be better able to:

- Apply the latest recommendations for food allergy identification and management to create effective treatment strategies for patients with food allergies
- Utilize knowledge on allergen exposure guidelines when counseling parents and caregivers to provide clear direction on managing allergen exposure during the complementary feeding period

JOINTLY ACCREDITED PROVIDER™  
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, Annenberg Center for Health Sciences at Eisenhower (Annenberg Center) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The Annenberg Center designates this live activity for a maximum of 0.75 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**ANNENBERG CENTER FOR HEALTH SCIENCES**  
AT EISENHOWER  
*Imparting knowledge. Improving patient care.*
