# Pediatrician's Corner Podcast A Conversation with a Pediatric Hematologist

**Nisha Rathore, MD**  
Pediatrician

**Clay Cohen, MD**  
Baylor College of Medicine

In this podcast, pediatric hematologist Dr. Clay Cohen and general pediatrician Dr. Nisha Rathore discuss some of the most common questions around hematology in pediatrics. Their conversation explores how to identify and evaluate patients at high-risk for iron deficiency – both infants and toddlers, as well as adolescents. They discuss key principles for the accurate interpretation of complete blood counts (CBCs) and share guidance on when CBC results warrant a hematology referral. Finally, they cover the topic of abnormal bleeding symptoms: when to be concerned, differential diagnoses, and the role of family history. This conversation closes the gap between the specialized knowledge of a pediatric hematologist and the frontline clinical care of the general pediatrician.

In support of improving patient care, Annenberg Center for Health Sciences at Eisenhower (Annenberg Center) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The Annenberg Center designates this activity for a maximum of 1.0 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Sponsored by

**ANNENBERG CENTER FOR HEALTH SCIENCES**  
AT EISENHOWER  
*Imparting knowledge. Improving patient care.*

The Annenberg Center designates this activity for a maximum of 1.0 American Nurses Credentialing Center (ANCC) contact hour.

Provider is approved by the California Board of Registered Nursing, Provider #13664, for 1.0 contact hour.

Registered dietitians (RDs) and dietetic technicians, registered (DTRs) will receive 1.0 continuing professional education unit (CPEU) for completion of this program/material. Registered Dietitians and Dietetic Technicians are to select activity type 102 on Professional Development Portfolio (PDP) activity logs.

### Learning Objectives

By participating in this course, you will:

- Recognize the role of adherence to clinical practice guidelines in improving patient outcomes and the efficiency of the healthcare system.
- Identify appropriate thresholds for referring pediatric patients to medical subspecialists for common conditions seen in the primary care setting.

Supported by an educational grant from  
**Mead Johnson Nutrition**
